### Press releases:

**Supreme Group Guam** – A press release was issued today on the proposed CAFO resolving Clean Water Act violations by Supreme Group Guam LLC at its fuel terminal at the Guam International Airport in Tamuning. The company will pay a \$150,000 penalty as part of the agreement. EPA inspected the facility in April 2017 and found it lacked a written Spill Prevention, Control, and Countermeasure (SPCC) plan that was certified by a professional engineer and included procedures to prevent and respond to oil spills. **Cabras Marine Guam** – A press release was issued regarding our action requiring Cabras Marine Corp. to reduce discharges of oil, metals and other contaminants into Apra Harbor, Guam. In March 2017, EPA conducted an inspection of the Cabras Marine facility and found multiple violations of the Clean Water Act. Under the administrative order on consent, the company will obtain required authorization for industrial stormwater discharges; improve controls for pollutants including sandblast grit, paint particles, paint aerosols and oily waste; install a media filtration unit to treat industrial stormwater prior to discharge into Apra Harbor; and build a permanent facility for the storage of used oil.
